AN IMPORTANT NEW LINCOLN BOOK

WHY WAS LINCOLN MURDERED? By Otto Eisenschiml. Octavo, cloth, with eight illustrations and sixteen pages of photostats of exhibits. Pp. 503 including index. Boston, 1937.

Price - $3.50, postage free

"I don't think I have ever known a research in history conducted with such exhaustiveness." - Paul Angle.

Carl Sandburg says - "The Lincoln shelf of books has acquired a masterpiece of inquiry, research, dissection and statement in Otto E. Eisenschiml's WHY WAS LINCOLN MURDERED? and so rigorous is it in analysis and so relentless and moving as a piece of story-telling that it also belongs on the book shelves of those who collect masterly narratives in the field of crime. The possible defects of the work are slight alongside of its highly positive value as a contribution to a wild and chaotic chapter of American history."
