Dear Mr Creech:

When you get an opportunity, will you make arrangements to have the photographer go to the Adjutant General's Office in the War Department and photograph the exhibits in connection with the assassination. We would also like to obtain a good photograph of Booth's note book and the handwriting. The one we have is taken from a magazine and is considerably soiled.

Will you learn if it is possible to find a copy of George Alfred Townsend's "John Wilkes Booth" in the Congressional Library? If you can find this and get it out for a couple weeks, I shall appreciate having the use of it.

Very truly yours
