September 29, 1937

Dr Louis A Warren, Director
Lincoln Nat'l Life Foundation
Fort Wayne Indiana

Dear Dr Warren:

I don't know how I missed buying a copy of "Lincoln's Parentage and Childhood," when it came out, but I do not have one in my library. Enclosed is a check for a copy as advertised in the attached announcement.

I have the Lincoln coin card almost filled, which you so kindly gave me on my visit in August. I am still short the 1909-S "VDB", 1911-S, 1912-S, and 1922. Do you know anyone who might have these? I would like to get in touch with them. I do not remember what you told me about the 1922 coin, but know from the card that there was no such issue. Just what was the story about this?

Due to vacations, our photostatic department has been practically down for a time, but they are getting started again this week. I haven't forgotten that I promised you photostats of articles that I have on the assassination.

Sincerely yours,

F L BLACK
