Dr Louis A Warren, Director
Lincoln National Life Fndtn
Fort Wayne Indiana

Dear Dr Warren:

I am starting to work on the book and certainly would appreciate receiving any suggestions or items which you might give me to include in it. I doubt that there is any piece of historical research work that is ever completed; and, frankly, I haven't done much on the assassination for several years. Additional material probably has come to light in the meantime.

Sincerely yours,

F L BLACK
