As per your letter of December 1st, the writer attended the "auction" at Northwestern University, Saturday, December 4th, to bid on Lot #81. For your information, the bid on this lot was started at $2,500, which bid was sent in by an "out of towner", and as there were no other bids of a larger amount, Lot #81 was sold for $2,500.

For your additional information, the writer encloses a book showing what all the different items were sold at from 1 to 81 inclusive.

Very truly yours,

A R Reich
