Dear Sir

Rec the complete series of Mr Blacks articles on J. W Booth I surely Enjoyed it & his argument on Finis Bates is about right seems funny Bates waited so many years to publish a book if he really knew this man was Booth. I realy think he had a mummy made for Exhibiting. the series fit fine in my Collection and I appreciate them very much. and the Dearborn Independent in general is fine reading I shall be a subscriber as soon as I can get to it. Thanking you again for the articles I remain

very Truly yours
