Mr. Henry Ford,
Detroit, Mich.

Dear Sir, -

I have been informed that you had an investigation made to ascertain if the report that one David E. Gorge (also known as John St Helen) who committed suicide in Enid, Okla. January 1903 was identical with John Wilkes Booth who assassinated Abraham Lincoln.

I have reasons to believe that I knew John Wilkes Booth in Southwest Texas in 1873 and 1874. The man was

living under an alias and married there. Booth's picture is very much like him and I am making investigations as to the man. The report you received regarding David E. George (or John St. Helen) would be of invaluable assistance in this. How can I secure a copy of the report and at what price? I am a very poor woman but most anxious to complete a chain of evidence. Your assistance would be highly appreciated in this matter.

Yours truly,

(Miss) Naomi J. Cone,
