MRS. BERNIE BABCOCK
2D VICE-PRESIDENT
LITTLE ROCK, ARK.

Dear Bro Finger:-

I do not have the tax on "All's Well" this morning. I will send it a little later however. It's worth the price to me to hear from you- though in a second hand way- each month.

I note you hand Mr Black a boquet of praise for his Booth articles.

In his last article he announces that the Booth "Myth" has been settled finally and forever(by his articles I suppose)

My forthcoming book BOOTH AND THE SPIRIT OF LINCOIN will prove a good stick to stir the puddle again. I take the position that Booth was NOT killed in the barn and I have some affadavits that will be hard to explain away, even by Mr Black's system.

My story is of Booth, a living dead man and the ghost of Lincoln which stalks majestically, or otherwise, through the pages. Lippincotts seem to think it will be much read. They report considerable advance interest.

The Dearborn Independent, Harpers and other publications, have given the subject wide advertising. My book may reap where it has not sown. I will have a copy sent you. You may not agree with a word in it - probably will not. Stll you will read it if for no other reason than to discover how I strung ninety thousand words together in story shape with no better characters than a living dead man, a ghost, a memory and a Voice, ~~with minor~~ as leading characters.

With good wishes to you and the hope or visiting you someday I am.

Very truly

Mrs Babcock

L. B
