Editor Independent,
Dearborn, Michigan,

Dear Sir:

For some reason the mail has failed to bring me my copy of the Independent May 2 or 9. Please see that the missing numbers are forwarded me.

I am anxious, among all else, to read the concluding articles on John Wilkes Booth. All that I have received I have been over with care.

But there is another side to the story - which, I am told, is shortly to be published.

I have heretofore written you of the proofs in the possession of Dr. Clarence True Wilson, of our Methodist Episcopal Church, in Washington. All that you have printed seems antagonistic to evidences in his possession that the man killed in the Virginia barn was not Booth.

So, with all the light I now have - as I say above, I have not seen your paper for May 2 - I am skeptical about all your articles.

Very Truly Yours,

(Rev. Dr.) A. B. Sanford.
