Dear Sir:

Last fall we had the pleasure of visiting Greenfield Village and Edison Institute and it was of great interest to our eleven year old son. Now since we have visited there these questions have come up in school where my son attends. And if it is possible for you to give us the correct answers will you do so?

Is the chair in the corner of the Logan County court House the original chair which Lincoln sat in at the time of his assassination?

If so, how long has Mr. Ford had this chair? since Nov 1929

Was this chair ever in Smithonian Institute at Washington? and how long ago?

Where did Mr. Ford get this chair? Samuel Luke; who purchased it at auction Anderson gallerie Nov 5. 1929

Are the stains the actual blood stains?

Has this chair ever been reupholstered or is it now as it was at the time of the assassination?

The reason for my asking all these questions is because another little boy visited Smithonian Institute last summer and is very much concerned over this also but says this chair was there last summer and altho we have your book telling of this chair it is not yet convincing to this little lad. Will you please reply as soon as it is possible for you to do so as these little boys are waiting your reply?

Yours truly
Mrs. E. Glenn Baxter
