Dear Sir ,
I am a reader and subscriber to the "Independent " and read the article regarding the disposition of the remains of John Wilkes Booth .I have read articles and heard many discussions of the matter and I thought that possibly you might care to have another to add to your list so I am sending you this clipping from the Moline Daily Dispatch which speaks for its self.

There have been articles on this same matter times before given by Mr. Sampson and published in the papers, and claimed by Mr. Sampson that the men who disposed of the remains were sworn to secrecy.

Trusting that you may not take this as an intrusion and that I am sending it to you with only the best of intentions I am,
Sincerely Yours,

C. W. Becker,
