p. 130
Where is Mr Treadkells
statement?. When made -
to whom -

Bates says - at Enid after
Death of George

Bates P 164

It is interesting to remember that ~~Sto~~ Ruggles story published Jan 1890 was in Century Magazine - and refutes Bates on several points - Nicholay & Hay story also Bambridge statement are in same magazine - It is well to have this evidence that Mr Bates has so carefully read this copy -

Doherty says in his statement P 447 - that he had with him photographs of Booth - what more natural than that he should compare them with the still living man early during the morning of April 26 - and also again after Booth died -

Doherty P 448 also told of Herolds return to Booth at the Garrett place on the day before Herold was captured and Booth shot -

2) Bates P164

as to essential details Doherty's statement corrobates Bakers

~~Ruggles~~ Bambridge, p445 says he & Ruggles ~~they~~ got back to the Garrett place - Morning April 25th accompanied by Harold -

Ruggles p444 says the next day Harold having decided upon the best course to pursue in his flight, Bambridge & myself accompanied him back to Garretts -

P 174

Gen Wallace's letter to the Joint and ~~true~~ is corroborated by C.T. Evidence - and ~~ser~~ newspapers - and statements already given -

To accuse him of evasion - merely stacks the pyramid of nonsensical statements and accusation ~~the~~ already made by Mr Bates, just one block higher -

Burial of Body - agree
Wallace -
Porter -
Baker -

Dana so generally inaccurate that his statement of one of the original fiction stories given out to purposely deceive - has no weight -
