Washington D C

Dear Madam:

Your letter of January 31st to Mr Henry Ford has been referred to the writer who made the investigation of the David E George and John St Helen claims.

We are herewith sending you copies of the Dearborn Independent containing a summary of this investigation. While there is no doubt in our minds that it was John Wilkes Booth whom the Government captured in the Garrett barn, we are nevertheless interested in the stories of likenesses found in various people. We would be interested in having more material on your man and may be able to give you other information from our files, if we know to whom you refer.

Very truly yours
