Dear Mr Stocks:

Thanks very much for your letter of May 4th.

Since I am making a collection of all the stories about people who think they knew John Wilkes Booth after his death, I would appreciate very much indeed having any additional details that you can supply about the chap who told you he had known Booth. Where did he know him and under what circumstances? I have been able to place Booth in about six different parts of the world at one time. I have about come to the conclusion that these various people must have seen his ghost as only a ghost could travel so rapidly. I shall be glad to hear from you again.

Very truly yours
