Dear Mr Franks:

Your letter of March 24th to Mr Cameron has been referred to the writer.

We are herewith enclosing a print of the St Helen picture. The line down through the center of the face was made on the original as a result of its being broken; whether before it was presented to Bates we do not know. Is it possible for you to obtain pictures of the man whom you think may have been St Helen? We would also be quite pleased to have the story of his life in Kentucky more in detail.

With best wishes, we are

Very truly yours
