July 1, 1937

Dr Louis A Warren, Director
Lincoln National Life Fndtn
Fort Wayne Indiana

Dear Doctor Warren:

I just received yesterday a copy of Startling Detective Adventures, issue for April, 1932, about which you wrote me June 7th. I couldn't locate this in Detroit, but found it in a second-hand magazine store in New York.

I have not been able to do much on the Lincoln matter. In addition to a lot of activity in the museum and village and preparations for the New York and San Francisco Fairs, I am also building a new house. I am living in hopes of getting started on the Lincoln material again sometime this summer and wonder if you will be in Fort Wayne around the end of the month. I have a talk to give at the McGuffey Celebration in Oxford, Ohio, July 31st, and plan to drive down. I could stop at Fort Wayne either on the way down Thursday or Friday before, or coming back the first of the following week.

Sincerely yours,

FM
