Dear Mr. Black:

Allow me to offer very sincere congratulations on the series of articles in connection with ~~series of articles on~~ Lincoln's Assassination and the extraordinary claims of the various pseudo-assassins whom you have tracked up so completely. You have certainly not only done a fine piece of work from the journalistic point of view, but also made a valuable contribution to American history. To me the articles have been especially interesting as a psychological study on the abnormal side.

You will find the psychological diagnosis of the whole story in a most able and interesting little book called "THE BELOVED EGO" by Dr. Wilhelm Steckle of Vienna.

May I hand you enclosed receipts for the Cashier with my grateful appreciation of prompt remittances?

Kindest regards to all from

Yours sincerely,

Paul Tyner.
