April 27th, 1925.

The Dearborn Independent,
Bearborn,Michigan,

Gentlemen:

Referring again to your J.Wilkes Booth investigation. I am attaching hereto a cliping from my files that would indicate that neither of five reports in the government's records as to the place of Booth's burrial is correct.

This would also indicate that it was the purpose of the War Department and those in authority to conceal the identity of the body thus burried and destroyed by acid. This cliping came from a paper dated Feb. 21, 1925.

You will please do me the kindness to return the cliping. I am,

Very truly yours,

Roy J. Wilson
