My dear Mr McKinney:

Forgive me for not sooner answering your kind letter of November 8th enclosing clippings of your talk on the Booth matter.

Last May I was given charge of the Ford Motor Company advertising and you can appreciate how busy we have been during the past few months.

Have you heard anything further from Dr Clarence True Wilson? I can understand how a sideshow type of promoter could be taken in by the Booth myths but not how Dr Wilson can believe all the silly tales. Who is this man Evans of Venice, California. I fear he is in for a monetary loss with his mummy.

Sincerely,

F L Black
