GEO. RAINEY
Postmaster
ENID, OKLAHOMA

November 24, 1930.

Mr. F. L. Black,
Dearborn, Michigan.

My dear Mr. Black:

Was pleased to receive your letter of the 20th instant, but sorry to learn that the cuts mentioned were not preserved. However, I shall be glad to have any of the picture copies which you have saved and will greatly thank you for them.

I think I wrote you that I have been discovering some newly-found evidence and that I shall go to Fort Worth, Texas the last of this month and into Maryland in January, which trips I hope, will result in practically clearing up the whole Booth matter, though, in my judgment, your article quite effectually did that very thing.

Whatever the result of my further investigations, I assure you, shall be freely given to you, all of which, I have no doubt, will but further prove the correctness of your opinion.

If you can send me some of these pictures, when I have done with them I will return same to you in good condition.

Very sincerely yours,

Geo Rainey
