F. L. Block,
Dearborn, Mich.

Dear Mr. Block:

Your letter of 22cd. inst. was received by due course of mail and there seeming no necessity for reply it remained unanswered of course.

However, having occasion to consult an article in The Confederate Veteran my attention was attracted by another article entitled John Wilkes Booth, etc. etc. and thinking it would perhaps interest you I am sending under separate cover for you to read and keep.

As there is another, adjoining article, that will come under your eye that makes known my identity, at the least, in a military way, I think of no explanation of its contents further than to say that the prefix "Colonel" is a post bellum title and dont mean much.

I know positively nothing of Mr. Isaac Harkens of New York City, nor does his article contain anything new; but, as you are giving the subject special attention, I am thinking possibly you will appreciate it never the less. In investigation we want everything available. As the news stands here do not handle The Independent, please send me copies of your articles as they appear, and very much oblige.

Very truly yours, W. A. Love
