Dear Mr Wilson:

The only picture I have of Bates is the halftone from the front of one of his books. This is probably the same one you have.

At one time I had quite a bit of correspondence with Blanche Booth. It was interesting the way Bates attempted to put a fast one over on her. I also have photostats of letters from Thos. Jefferson and Clara Morris - probably the same letters you have. Penniman I know quite well and at one time spent several hours with Ryan. You would enjoy meeting Penniman. Before he became an undertaker he was a reporter on the New York Sun. At the time of the David George suicide at Enid he utilized the circumstances for all the publicity it was worth.

Very truly yours
