N·W·AYER & SON
INCORPORATED

500 FIFTH AVENUE

NEW YORK

January 10, 1938.

Mr. F. L. Black,
Engineering Laboratory,
Ford Motor Company,
Dearborn, Michigan.

Dear Mr. Black:

Attached is the final report on the Booth research. All the photostats, excepting those previously mailed, have been sent under separate cover.

For convenience, I am attaching copies of your two letters to me, with a separate report on each item. You will note that only two of the items could not be found.

Our research man says he believes very little else, if anything, can be found in New York, but further data might be acquired in other cities where Booth played.

Very truly yours,

H. L. McClinton
